

A follow up to the successful SPITFIRE Return to Flight published in 2010 and by the same author, **MUSTANG Return to Flight** covers the History of the Royal New Zealand Air Force, the Territorial Air Force and the remarkable history and restoration of the one 1945 RNZAF P-51D Mustang survivor in New Zealand which is now operated from RNZAF Base Ohakea and seen around New Zealand. It made its debut at Warbirds over Wanaka 2024 and is the only flying Mustang in New Zealand. The P-51 Mustang stands as one of the greatest fighters of WW2 alongside the Spitfire and is instantly recognizable at airshows and public displays. This book offers incredible behind the scenes views of a complete warbird restoration in New Zealand.

ISBN 978 0 473 74761 9
